This is a "tighter" version of the Pathfinder RPG: Chronicles of the Mwangi Expanse, published by Kobold Press. The goal was to reduce the book size and improve the quality. This version is usable in the Pathfinder RPG: Chronicles of the Mwangi Expanse and is totally compatible with the original version. The Pathfinder Chronicles is a setting for a campaign. It is intended for use with the Pathfinder RPG or another d20-based game using the Pathfinder RPG rules. Characters may be built for any d20-based game, but they are designed for the Pathfinder RPG. Characters from the Pathfinder RPG may be used in the Pathfinder RPG: Chronicles of the Mwangi Expanse. However, adventures will take place in the Mwangi Expanse, not the Pathfinder RPG. Characters from the Pathfinder RPG: Chronicles of the Mwangi Expanse may not be used in the Pathfinder RPG. The playbooks for the Pathfinder RPG: Chronicles of the Mwangi Expanse are arranged by a "path" which describes the adventure, the character creation process, and the roles that characters are expected to play. In the Pathfinder RPG: Chronicles of the Mwangi Expanse, this path is named "The Jungle Awaits." Each player character may take up to four or five of the starting actions found in the Pathfinder RPG: Chronicles of the Mwangi Expanse to begin their adventures. What's New in v2.0 -Maps have been revised as per the Pathfinder RPG rule changes for the 3.5 reboot and can now be used with or without Pathfinder RPG itself. -Fortresses and Noble residences now have their own unique Treasure map. -Fortresses can now take a Tier:1 or Tier:2 list for treasure equal to their Tier. -Refined monster events have been added. -Some monster events were not included in some books that are now fixed! -The new map is to fit in and is compatible with the current version of Fantasy Grounds. -The Maps are greatly expanded and in-game based descriptions have been added for all maps. -Maps can be resized on the fly for combat use. -The PDF files are in Postscript format which can be used anywhere. -The book is fully compatible with Fantasy Grounds so any books written for Fantasy Grounds can be used in Fantasy Grounds. -All handouts have been left in-game ready to be dropped in at any time during a game. - c9d1549cdd

A short whilst ago I got the news that a couple of serious/anxious girlfriend I have out in the'real world' have been diagnosed with cancer. It's scary to hear as there's no cure for most types of cancer. Its not fair, and it's not right. These 'beautiful' little creatures need our help. A bone cancer called Osteosarcoma has affected my girlfriend, and for two years its been slowly creeping along her bones to the point where, when the doctor felt it was ready, he had to go into her stomach to remove the disease. She went under general anaesthetic, and within 24 hours she woke up a different girl, a different individual - she's alive, shes fighting cancer, she's fighting for her life. If your willing, and I would definitely love your support in helping my girlfriend stay alive and fighting, check out the following link, I have added some pictures and videos for a reason. The more of you guys that go check out the links, the more my girlfriend will thank all of you. If you feel like donating, however much you like, any small amount will help. Thanks so much! Ps, sorry if some of the texts are a bit small in the videos, I will get around to fixing that soon. Overview: Virtual Earth is the free desktop product for exploring and visualizing large datasets. In the not-so-distant future, Observers are creating a world of reality-altering technology, which has produced a large number of virtual reality games. Numerous companies have combined to create a megasite designed to test the human psyche. Visitors must pay to enter the world, but the site also offers a new way to alter consciousness - in the form of the Observers. A secret society of technology-enhanced humans, Observers are the true rulers of this world - their abilities blur the line between fiction and reality. The ability to intercept, monitor and influence human thoughts is only the beginning. They are the ultimate creators of our environment, and their minds are completely blank. You can see, hear, read and smell the world before you. But, do the Observers see, hear, read and smell you too? Key Features: • Never-before-seen psychological VR experiences • An original soundtrack composed by Arkadiusz Reikowski, HMMOS Award-nominated composer • 20 mini-game scenarios for a total duration of around 50 minutes • Explore the O2 VR megasite to its full extent, from the gallery to the heart of the universe. Each discovery is a unique experience full of mystery, suspense and fear. Your curiosity will be tested • A unique Oculus Rift compatibility • Thousands of traces of living, breathing inhabitants who have left a trail of data and their secrets behindKeetoowah Archeological Site Keetoowah Archeological Site is a prehistoric archaeological site located in Pickens County, South Carolina, near Brushy Creek, and within the boundaries of the Moultrie Archeological District.
